

YTS304H

SUS304 Stainless Seamless Steel Honed Tubes

Introduction

1. After honing and grinding, SUS304 stainless seamless tube with high precision complies with international standard.
2. Can be used directly and save your time in processing.

Usage

SUS304 Stainless seamless steel tubes are suitable for chemical industry machine, medical equipment, food machines, marine machines, semiconductor vacuum machine equipment.

SUS304 Stainless Seamless Steel Honed Tubes Size List

ID (mm Ø)	OD (mm Ø)	ID (mm Ø)	OD (mm Ø)	ID (mm Ø)	OD (mm Ø)	ID (mm Ø)	OD (mm Ø)	ID (mm Ø)	OD (mm Ø)	ID (mm Ø)	OD (mm Ø)
20	30	30	40	40	50	63	69	80	90	100	114
25	30	32	37	50	56	63	73	100	110	125	135
30	35	40	45	50	60	80	86	100	107		

- ID Tolerance : H8 (Please consult Page 10)
- ID Surface Roughness : Ra 0.2 - 0.8
- Standard Length : 3 - 6 M

SUS304 Extra-Thin Style Precisely Rolled Stainless Seamless Steel Tube

Introduction

1. Extra-thin style stainless steel tube applies in Pneumatic Cylinder.
2. Can be used directly and save your time in processing.

Usage

Suitable for automation machinery, disposable pneumatic cylinder, chemical industry machinery, medical equipment, food machinery, etc.

SUS304 Extra-Thin Style Stainless Seamless Steel Tube Size List

ID (mm Ø)	OD (mm Ø)	ID (mm Ø)	OD (mm Ø)	ID (mm Ø)	OD (mm Ø)	ID (mm Ø)	OD (mm Ø)
10	11.2	16	17.4	25	26.4	40	41.6
12	13.2	20	21.4	32	33.6		

- Standard Length : 3 M

YTS316H

SUS316 Stainless Seamless Steel Honed Tube

Usage

1. SUS 316 Seamless Stainless Steel Honed Tube has below features: nice corrosion resistance, good abrasion resistance, low magnetism.
2. Suitable for the tubes of semiconductor vacuum machinery equipment, the exhaust pipes of chemical industry, gas, acidity & alkalinity and the pipe of inflammable vapor equipment, food and medical equipment.
